

## ECE 448 Lab 5 Report

### List of Fully Completed Tasks

- Hardware Fractal Core
- Software Driver Core

### List of Partially Completed Tasks

- Main software method

### Difficulties Encountered

- 1) My monitor does not have a VGA cable and I could not find a cable converter, so testing was impossible.
- 2) I was busy all of this week working on my CS 471 project. This left 2 days for my lab, which is my fault for not being able to foresee this. This severely limited my time, and thus I was not able to complete this lab.
